THE STORY BEHIND SPARK

Marcelo's story is the embodiment of the American Dream: arriving in the U.S. from Brazil with no English, he built his path from humble beginnings to piloting U.S. Presidents and leading international flight departments. From Gulfstreams to Globals, his logbook includes the world's most advanced aircraft — and his contact list spans the highest levels of business aviation.

PEOPLE FIRST, ALWAYS

At Spark Aviation, business is personal. We believe in long-term relationships built on trust, performance, and a deep commitment to serving people — not just deals.

“

I came to this country not knowing the language, but I knew how to serve, how to fly, and how to connect with people. That's what this company is built on: relationships, integrity, and a love for aviation. Whether you're buying your first jet or managing a global fleet — we're here to serve you.
